

Carbon Reduction Plan

Supplier name: Channel 3 Consulting Ltd

Publication date: 27/04/2023

Commitment to achieving Net Zero

Channel 3 Consulting Ltd is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
This is the first time we have reported our carbon footprint so this calculation establishes our baseline. It is based on our financial accounting year of April-March.	
Our Baseline calculation includes:	
<ul style="list-style-type: none">• Scope 2: Indirect Emissions• Scope 3 Categories: 1: Purchased goods and services: 3: Fuel and energy related activities: 4: Upstream transportation & distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking:	
Our Baseline deviates from the requirements under PPN 06/21 as follows:	
<ul style="list-style-type: none">• Scope 1: Direct Emissions is not included as the office heating is electric and there are no company vehicles, , , .• Scope 3: Category 9: Downstream transportation & distribution: is not included as the company paid for all deliveries.• Scope 3: Category 1: Purchased goods and services: is included as we have evaluated emissions from goods and services purchased. Scope 3: Category 3: Fuel and energy related activities: is included as upstream emissions from fuels/energy and T&D losses are included.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0 tCO ₂ e
Scope 2	2.6 tCO ₂ e
Scope 3 (Included sources as detailed above)	153 tCO ₂ e
Total Emissions	155.6 tCO₂e

Carbon Reduction Plan

Current Emissions Reporting

Reporting Year: 05 Apr 2021 to 04 Apr 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0 tCO ₂ e
Scope 2	2.6 tCO ₂ e
Scope 3 (Included sources as detailed above)	153 tCO ₂ e
Total Emissions	155.6 tCO₂e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 127.8 tCO₂e by 2027. This is a reduction of 17.9 %

Progress against these targets can be seen in the chart below:

Carbon Reduction Plan

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the baseline and the measures will be in effect when performing the contract.

- All electricity purchased is 100% renewable (backed by REGOs)
- We have joined Go Climate Positive's Net Zero programme which will help use to develop a detailed roadmap showing how we will achieve Net Zero GHG emissions

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Review our business travel policy to encourage public transport and investigate ways to encourage employees to switch to Evs
- Investigate opportunities to purchase remanufactured IT equipment
- Do detailed employee survey of home energy use to improve estimated emissions
- Do supplier survey of top 10% suppliers to find out which have calculated their carbon footprint and/or have carbon reduction plan

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
